

**Year 2**

**Spring Term 2**

**Where does a plant come from?**

**September 2023**

## Maths:

**Multiplication and Division** Children will further their knowledge of multiplication and division through arrays.

## Length and height

Children will recap what is meant by the terms length and height. They will revisit the idea of measuring length with nonstandard units such as cubes before moving on to measure length in centimetres and metres.

## Art:

Children will learn how to use a range of materials to creatively design and make a flower pot using clay.

## PSHE: Healthy Me

Children will learn how to make a healthy choice, eat health and have a balanced diet. They will also learn about how to stay physically active, keep themselves and others safe, be a good friend and enjoy healthy friendships and keep calm and deal with difficult situations.

## English: Traditional Fairy Tales

Children will write an adaptation of a chosen traditional fairy tale. They will demonstrate the skill of successfully using full stops, capital letters, commas for lists, expanded noun phrases and co-ordinating conjunctions within their writing. Children will also practice the skill of proof-reading to check for errors in spelling, grammar and punctuation.

*Where do plants come from?*

## Computing:

In this unit of work, children will learn how to organise useful information into different spreadsheets.

## Physical Education: Health and Fitness

Children will learn how and why their bodies change during exercise. They will use equipment whilst learning how to move and land safely. By the end of the unit children will be able to explain why exercise is important for good health.

## Music:

In this unit of work, children will listen, sing, play, compose and perform music whilst celebrating a wide range of musical styles. The carefully selected songs in the unit allow us to think about how music can help us make and keep friends.

## Science:

### Plants - Growth and Care

In this unit, children further their understanding of plants in more depth. It builds upon Year 1 units by encouraging children to think more scientifically about how and why plants grow as they do, as well as recognising the journey from seed to flowering plant. Learners discover for themselves by observing plant growth and setting fair tests with variables to understand the best conditions for growth.

## R.E: Christianity

This term in RE, we will be looking at retelling the Easter story and understand what Jesus' resurrection means for Christians.
