Year 2 families: Maths Calculation Skills (addition)

9-10:30am Thursday 9th/ Friday 10th October 2025

Dear Parents,

We are very pleased to offer you an opportunity to join your child in school to find out more about how we teach maths in Year 2 and have fun making/playing a game together (which you can take home with you at the end of the session).

The Family Learning Team will help to run this event which starts straight after school drop-off at **9am** and ends by **10:30am latest**. These sessions provide a wonderful (and rare!) opportunity for you to work 1:1 with your child and we would ask that younger siblings are not brought along on this occasion.

Please sign up by **Thursday 2nd October** using the school online booking system

CRISS CROSS THREE - ADDITION

Equipment:
Red and blue counters (or similar), calculator

- Player 1 uses a pair of (blue) numbers from the list to write an addition sum on their paper/whiteboard. They then need to complete the sum, using their counters to help if needed. (They might enjoy using a calculator to check their answer too!)
- If the answer is on the grid they can cover with one of their counters
- Player 2 then does the same.
- Players take it turns to choose pairs of numbers and cover squares on the grid. Once an square has been covered it cannot be covered again.
- The winner is the first person to put three counters in a row, across, down or diagonally.
