How to use this list

Most of these books are for **sharing**: you read them to your child, or read them together. They are not the books your child reads on their own for phonics practice.

A book to read

Your child's school reading book is matched to what they can read independently, whether they are still on Read Write Inc. or have moved on. Read it two or three times to build speed and confidence.

A book to share

The books on this list can be well above what your child can read alone. Sharing them builds vocabulary, knowledge and a love of reading.

Mixed classes, shared topics

Year 1 and Year 2 children learn together this year, so the topic books are the same on both year groups' lists. Some Year 2 children will enjoy reading the chapter books on their own; others will prefer to share them. Let your child choose: children read more when they pick books they feel drawn to.

Tips for sharing a book

- Read with expression, and use different voices for the characters.
- Ask "What do you think will happen next?" and "How do you think they feel?"
- Read favourites again and again, and encourage your child to retell the story in their own words.
- Link books to what your child is learning: the topic books below are a great place to start.

Books for our topics

Each half-term our learning is built around a big question. Reading a book linked to the topic at home helps your child build knowledge and vocabulary, and gives you lots to talk about. Tap a title, where there is a link, to see its cover.
